

Technical sheet Filter boxes FD

Product description

Filter boxes FD are used to clean supplied air. They are mounted into a system of circular air ducts. Completed with exchangeable FM-type G4 class panel filters. Maintenance cover is attached to the casing using one hinge and is easily removable. The products are made from hot-galvanised sheet metal. Equipped with rubber gaskets.

Products accordance with standards:

- EVS-EN 1506:2007 Ventilation for buildings - Sheet metal air ducts and fittings with circular cross-section - Dimensions
- EVS-EN 10346:2015 Continuously hot-dip coated steel flat products for cold forming - Technical delivery conditions
